DIRECTOR: WHITE HOUSE SITUATION ROOM

SUBJECT: CAMBODIA--THE MILITARY SITUATION

FLD
170 #18

Military action throughout most of the country is at a low level. The Khmer Communists have not contested recent government gains northwest of Phnom Penh, and successful government clearing operations have pre-empted Communist plans for attacks just south of the capital. Government forays near the provincial capitals of Takeo and Prey Veng--south and southeast of Phnom Penh respectively--have also met little resistance.
